

All Prospective Aerial Application Contractors

We are now preparing for the 2001 aerial application season. If you would like to participate in our grasshopper/mormon cricket control program this year, please complete and return the attached "Solicitation Mailing List Application" and Section K--Representations, Certifications and other Statements of Offerors, including identification of the aircraft that you would make available for aerial spraying and bait application. **(PLEASE HIGHLIGHT ANY CHANGES SINCE YOUR PREVIOUS APPLICATION.)**

If you were on our bidders list for last year, we require, in addition to the above information you furnished at that time, information on any major financial status changes. Please ensure that your company name, current mailing and e-mail address, phone and fax numbers are correct and that you have a current Federal Aviation Administration Commercial Agricultural Operator Certificate.

If you have any changes, to ensure that our files are updated and correct, return your completed application to:

**USDA, APHIS, MRP-Business Services
Attn: Contracting
Butler Square, 5th Floor
100 North Sixth Street
Minneapolis, NM 55403**

If you have no changes, in order to activate you as a current year applicator, we will need written confirmation that the information given on your most recent application is current and that you want to participate. If we do not hear from you, we will remove your name from the bidders list.

Upon approval of your application and confirmation that you have a copy of the 2001 Aerial Application Prospectus (available on our web site at www.aphis.usda.gov/mpis/contracts/cbdmain.html) your name will be added to this year's bidders list. The prospectus contains information you will need to bid, including the terms and conditions of APHIS aerial application contracts, and will become a part of any resultant contract. To confirm that you have downloaded a copy of the prospectus, or for assistance in downloading or securing a hardcopy, contact José-Luis Gallagher at Jose.L.Gallagher@aphis.usda.gov, or at 612-370-2226.

Bidders will be solicited for individual application jobs according to:

- A. States checked in the Mailing List Application.
- B. Category/Type of aircraft meeting job requirements.
- C. Number of aircraft required to perform jobs.

On large application jobs requiring multiple categories (Categories A through D) of aircraft, the Government reserves the right to solicit only contractors with the larger aircraft, allowing the prime contractor to subcontract with owners of smaller aircraft.

It is Government policy to set aside for small business, to the extent possible, all solicitations for aerial application. This year, the set-aside provision has been included in the prospectus and will be incorporated, by reference, in the solicitations. However, in the event limited competition is expected from small businesses for a particular job, we will solicit full and open competition, without business size restrictions. Such solicitations would explicitly exclude the set-aside provisions.

Should you have any questions, please call (612) 370-2115 for assistance.

INSTRUCTIONS

Persons or concerns wishing to be added to a particular agency's bidder's mailing list for supplies or services shall file this properly completed Solicitation Mailing List Application, together with such other lists as may be attached to this application form, with each procurement office of the Federal agency with which they desire to do business. If a Federal agency has attached a Supplemental Commodity list with instructions, complete the application as instructed. a. Small business concern - A small business concern for the purpose of Government procurement is a concern, including its affiliates, which is independently owned and operated, is not dominant in the field of operation in which it is competing for Government contracts, and can further qualify under the criteria concerning number of employees, average annual receipts, or the other criteria, as prescribed by the Small Business Administration. (See Code of Federal Regulations, Title 13, Part 121, as amended, which contains detailed industry definitions and related procedures.)

b. Affiliates - Business concerns are affiliates of each other when either directly or indirectly (i) one concern controls or has the power to control the other, or (ii) a third party controls or has the power to control both. (See Items 8 and 11A.)

c. Number of employees - (Item 11B) In connection with the determination of small business status, "number of employees" means the average employment of any concern, including the employees of its domestic and foreign affiliates, based on the number of persons employed on a full-time, part-time, temporary or other basis during each of the pay periods of the preceding 12 months. If a concern has not been in existence for 12 months, "number of employees" means the average employment of such concern and its affiliates during the period that such concern has been in existence based on the number of persons employed during each of the pay periods of the period that such concern has been in business.

TYPE OF OWNERSHIP DEFINITIONS (See Item 12.)

a. "Disadvantaged business concern" - means any business concern (1) which is at least 51 percent owned by one or more socially and economically disadvantaged individuals; or, in the case of any publicly owned business, at least 51 percent of the stock of which is owned by one or more socially and economically disadvantaged individuals; and (2) whose management and daily business operations are controlled by one or more of such individuals.

b. "Women-owned business" - means a business that is at least 51 percent owned by a woman or women who are U.S. citizens and who also control and operate the business.

b. "Service establishment" - means a concern (or person) which owns, operates, or maintains any type of business which is principally engaged in the furnishing of nonpersonal services, such as (but not limited to) repairing, cleaning, redecorating, or rental of personal property, including the furnishing of necessary repair parts or other supplies as a part of the services performed.

AIRCRAFT CATEGORIES

The Aircraft Categories have been established to facilitate program planning for required aircraft based on the insect life cycle, timing of application, support personnel, adequate airport space, required aircraft performance, length and strength of runways, taxi ways and ramps, and the elevation and type of terrain to be treated.

The chart below lists aircraft by category, the assigned swath spacing for Malathion, Sevin XLR Plus, Dimilin 2L, and the stainless steel flat fan spray tip size required for the pesticide used. When using Reduced Agents and Area Treatments (RAATs), use the assigned swath width for calibration but space the aircraft an additional 25 feet when using malathion and an additional 100 feet when using Sevin XLR Plus and Dimilin 2L. Example: A turbine Air Tractor will be calibrated for a 150 foot swath and spaced 175 feet when using malathion. When using Sevin XLR Plus or Dimilin 2L, the aircraft will be calibrated for 125 feet and spaced 225 feet.
